Steve,

Good afternoon! How are you?

I am sure that you have your hands full with the current situation in Durango, so I am reaching out to offer up some help. Stantec has resources in Denver and across the west who can assist in anything from ecological resources to remediation and stream restoration.

At least it is a nice change of scenery from North Dakota in the winter!

Let me know if you need any help.

Bethany Lucente, P.G.
